

# Genetic Counseling and Metabolic Nutrition 101: *Bridging the Gap Between Specialties*

Join us for a virtual discussion incorporating case-based learning for genetic counselors and metabolic dietitians to enhance their understanding of inborn errors of metabolism.

**THURSDAY, MARCH 2, 2023**

10:00 AM–11:00 AM PT • 11:00 AM–12:00 PM MT  
12:00 PM–1:00 PM CT • 1:00 PM–2:00 PM ET

## PROGRAM OBJECTIVES

- Provide an overview of both basic genetics and the role genetics can play in specific inborn errors of metabolism
- Review approaches to metabolic nutrition management for patients with inborn errors of metabolism
- Discuss the roles of the metabolic dietitian and the genetic counselor in the clinical setting
- Highlight the importance of the metabolic dietitian and the genetic counselor in achieving patient goals through case examples

**REGISTER NOW**

## FACULTY

**Michelle Fox, MS, CGC**  
Genetic Counselor–Adjunct Associate Professor  
David Geffen School of Medicine  
UCLA  
Los Angeles, CA

**Chanel Suarez, RD, CSP**  
Metabolic Dietitian  
UCLA Health  
Los Angeles, CA
